RH-L3619-PGW

WM: RM 5,100 EM: RM 5,355

PREMIUM

Suction Power 1800m³/h

Dimension W 895mm D 380mm H 880-1310mm

LED Touch Sensor Control with Wave Function	Ozone	Heat Clean	DC Motor
LED Light	Colour Changing Mood Light	3 Speed settings	Booster Function
Delay Timer	Ventilation	Recirculation	Oil Cup
Mesh Filter	Clean & Fresh	Ø180mm	

Ozone Disinfection Function

The ozonizer in the cooker hood disinfects the kitchen by generating ozone, which effectively reduces cooking smells, kills bacteria and viruses. As ozone is released, it penetrates surfaces, improving air quality and reducing odors. This enhances the cooking environment and minimizes cross-contamination.

Wave Control

Touchless Smart Motion Sensor allows you to conveniently control the hood when you are inconvenient to touch the control buttons or when hands are oily. You can switch on/off the hood or change the speed settings with just a wave of your hand.

Auto Heat Clean

This feature uses a heating element to break down and eliminate accumulated grease and grime in just 9 minutes. It offers efficient, automatic cleaning that not only extends the lifespan of the cooker hood but also sterilizes the interior by killing bacteria and microorganisms.

Delay Timer

The cooker hood will switch off automatically at a preset time, so you can proceed with your meal after cooking is done. Meanwhile, the cooker hood will continue to extract the oil fumes, leaving a clean kitchen without smoke or pungent smells.

Filter Reminder

Alerts users when it's time to clean or replace the filters, ensuring optimal performance and air quality. This feature helps maintain efficient grease and odor capture, prevents airflow obstruction, and prolongs the lifespan of the cooker hood.

LED Mood Light

Adjustable LED color lighting on the cooker hood enhances the kitchen ambiance and elevates the cooking experience.
